

TO MAKE OVER NICARAGUA

NEW ELECTION AND NEW CONSTITUTION ARE PROMISED.

Decree of Jose Estrada Putting His Brother in Temporary Control—U. S. to Take a Hand—Needed Goods on Free List—Madriz Flees to Costa Rica.

WASHINGTON, Aug. 24. Dr. Jose Madriz, the deposed President of Nicaragua, and his followers have fled to Honduras, according to despatches received by the State Department to-day from James W. Thompson, Consul at Corinto. The deposed President fled August 21, 9 P. M. by a train for Managua, and then to the Pacific Mail steamer for Managua.

The deposed President also says that 200 prisoners of war had been ordered released from an island near Corinto the night the refugees fled. Mr. Thompson reported that the situation was quiet at Corinto.

Official releases received by telegram from Managua to public necessities. Jose Estrada has decreed that for a period of six months, dating from September 1, the following goods shall be admitted into the country free: Corn, beans, rice, sugar, flour, kerosene, naphtha, candles, ordinary soap, tallow, gasoline, oil, salt, acids and disinfectants.

Jose Dolores Estrada, brother of the deposed President and acting President of Nicaragua, issued a decree yesterday which called for the suspension of business and recognition of the provisional government formed at Bluefields last year. In part the decree is as follows:

"As a Congressman and Provisional President of the republic and by virtue of my legal faculties and recognizing the necessity to put to an end the bloody civil war that is exhausting us, I, Jose Dolores Estrada, decree:

"First, to recognize as the provisional government of Nicaragua the one elected by the revolution at Bluefields on October 1st last year, of which the provisional leader is Juan Estrada.

"Second, the appointment of a commission of peace composed of Rafael Cabrera, Salvador Castro, Hildebrand Casanova, Gen. Jose Leon Castillo and Tomas Martinez, which will make known this decree to the military commander of the revolution, agreeing to a suspension of hostilities until the arrival of the new President at the capital.

"Third, that if the commission shall meet Gen. Estrada en route to the capital he is empowered to sign a convention of peace in accordance with this decree and to call for a conference with this legislature at once at a convenient place.

"Fourth, that in case Gen. Estrada is not far away from the front the commission is authorized to propose to the military chiefs that they select a person who in the name of the revolution and with the provisional executive shall organize a governmental junta to act as the supreme power until the arrival of President Estrada.

"Fifth, that Gen. Estrada must call a free election for the office of President of the Republic within a reasonable time, not to exceed six months, the said election to be in accordance with the principles of the liberal and conservative parties.

"Sixth, that if any of the commission members is unable to perform the remaining commission they will choose substitutes with full power to act.

"Seventh, that Gen. Estrada said he would wait the return of the special peace commissioners before he would order the disarmament of the soldiers. The advance guard of the army, consisting of 70 men and officers, arrived in Managua on Monday, according to the despatches from Gen. Olivares at Managua.

In connection with the elections to be held in Nicaragua it can be said with authority that the United States will exercise a sort of supervision over them. The land of voting is at hand. As in the case of Cuba and Panama, supervisors selected by the State Department will see that the election is carried on without hitch or trouble and that the man receiving the most votes is inducted into the Presidency.

A new constitution will be promulgated and there again the hand of the United States will be evident. The document will be prepared, or rather the document will be revised, under the guidance of Secretary of State Knox. Gen. Mena and Chamorra have a fall following in Nicaragua. It is predicted that before the day of voting they will have to be reckoned with.

GREAT MYSTERY OVER CRIPPLEN.

British Police Who Couldn't Find Him Will Smuggle Him Into England.

LIVERPOOL, Aug. 24.—The police authorities here are taking extreme precautions to guarantee the secret landing of Dr. Hawley Harvey Crippen and Ethel Clare Le Neve from the White Star steamship, Magonite, on Saturday, when they arrive from Quebec.

The White Star Steamship Company has been inundated with requests from various persons for permission to board the steamship on its arrival here, but all have been refused.

Most reporters will be excluded from the vessel.

PANAMA STILL RESENTFUL.

Mendoza, Whom U. S. Bars From Vice-Presidency, Says He Will Reply.

PANAMA, Aug. 24.—A conference was held yesterday afternoon between the American Charge d'Affaires, acting President Mendoza, and the Minister of Foreign Affairs, in which the attitude of the United States with regard to political affairs in Panama was presented. Dr. Mendoza was seen by the Vice-Presidency last night by the United States on the ground that it would be unconstitutional, and that he would reply to the Charge d'Affaires within forty-eight hours.

Nothing further regarding the proceedings has been learned. The excitement among the people over the interference of the American Government in Panama's internal affairs continues high.

PANAMA BOUNDARY DISPUTE.

Costa Rica Finally Approves the Protocol Drawn in Washington.

WASHINGTON, Aug. 24.—The boundary dispute between Costa Rica and Panama has been settled by the former approving the protocol drawn in Washington, according to information received from the State Department to-day from William L. Merry, Minister to Costa Rica. The protocol was drafted through the efforts of the State Department and provided for arbitration of disputes between the two countries by the Chief Justice of the United States Supreme Court. A letter of approval came to the State Department yesterday from Costa Rica, and was sent to the State Department by the Secretary of State. The protocol was approved by the Costa Rican Congress on August 22.

MOROS AGAINST FILIPINOS.

Tribe men to Mindanao Favor the United States Both Sides See Dickinson.

Special Cable Dispatch to THE SUN.
MANILA, Aug. 24.—The visit of Secretary of War Dickinson to Zamboanga, capital of the Island of Mindanao, whose population consists largely of Moros, was marked by a demonstration in favor of annexation to the United States. The Filipinos, who are in a minority, presented a petition to Secretary Dickinson asking for control of the Moro government and the independence of the island.

Secretary Dickinson in reply pointed out the unwisdom of interfering with the Moro people, who are a people of nearly half a million Moros to less than one hundred thousand Filipinos. He said such a course would result in trouble and would be necessary for the United States to restore peace.

A party of dattos, or chiefs, representing 40,000 Moros, then took the oath of allegiance to the United States and vowed that they would make war on the Filipinos if the Americans left the islands which the former control. Cheers for annexation were followed by a wild Moro demonstration in favor of that course. The Moros and the Filipinos have been enemies for ages and have been constantly at war.

TRANSPORT CONGRESS TO MEET.

English and Americans Angry at Defeat of Seamen's Strike Idea.

SPECIAL CABLE DISPATCH TO THE SUN.
COPENHAGEN, Aug. 24.—There were violent scenes at today's session of the International Congress of Transport Laborers. The American and English delegates opposed the Germans, who were against the English strike plan and an Anglo-American motion supported by the Danes reestablishing a special international seamen's union in connection with the existing International Transport Workers Federation which arranged the present convention.

The federation control committee which consists only of Germans, insists that seamen join the federation which includes dockworkers, railway men and car men. The Americans and English violently attacked the German motion, accusing them of lack of comradeship and of damaging the English seamen's interests.

They also accused them of damaging the strike plan by articles in the federation's papers. The sitting closed amid a tumult.

MOISSANT'S BROTHER HURT.

Auto, Not Aero, This Time Had Been Helping on Flight to London.

SPECIAL CABLE DISPATCH TO THE SUN.
LONDON, Aug. 24.—A brother of John R. Moissant, the American aviator who had several mishaps during his flight from Paris to London, was seriously injured to-day in an automobile accident at Seven Oaks, near which place the aviator was compelled to descend on Monday owing to an accident to his aeroplane. The brother has been assisting John in his flights.

He suffered serious injuries about the face and hands and had to be removed to a hospital for treatment. Later he left for London.

TRUCE RUMORED IN SPAIN.

Vatican Sending a Note, Ministry Said to Have Suspended Decrees.

SPECIAL CABLE DISPATCH TO THE SUN.
MADRID, Aug. 24.—It is reported that the Marquis de Gonzalez, Spanish Charge d'Affaires at the Vatican, has telegraphed the Government that he has received a long, detailed note from the Vatican replying to Spain's last note.

It is also rumored that the Government has suspended all anti-Catholic measures pending the arrival of the document.

The Weather.

Aug. 25. Little change occurred in general conditions yesterday, with the exception of an increase of pressure over the Northwest. The pressure remained high over the Atlantic States and over the Lower Mississippi Valley.

The trough of depression continued over the region between the lake regions and the far Southwest, with its center over the Lower Mississippi Valley. Very little rain fell in connection with this low pressure, and that was in Missouri, Kansas and Colorado, although it was cloudy in the central States and all Northern States east from Montana and Wyoming.

There was moderate rain on the south Atlantic coast. Higher temperatures prevailed in the Upper Mississippi Valley, the lake regions and eastward. Very little rain fell in connection with this low pressure, and that was in Missouri, Kansas and Colorado, although it was cloudy in the central States and all Northern States east from Montana and Wyoming.

Temperature yesterday, as recorded by the official thermometer, is shown in the annexed table.

WASHINGTON FORECAST FOR TO-DAY AND TO-MORROW.

Pennsylvania New York, New England and eastern Pennsylvania, partly cloudy to do. showers and rain. Moderate to moderate south to southwest winds. For the District of Columbia, New Jersey and Delaware, partly cloudy and continued warm to day; showers to-morrow; light to moderate south to southwest winds. For Maryland, partly cloudy and continued warm to day; showers to-morrow and cooler in western portion; light to moderate south to southwest winds. For western New York, partly cloudy to-day; showers and cooler at night or to-morrow; cool to brisk, southerly winds. For eastern Pennsylvania and Ohio, partly cloudy to day; showers and cooler at night or to-morrow; moderate to brisk southerly to south west winds, becoming northwesterly to-morrow.

THE PASSING OF COREA.

Powers Notified of New Treaty by Japan. Proclamation Saturday.

TOKYO, Aug. 24.—The proclamation of the new constitution annexing Corea to Japan has been postponed at the request of the Korean Emperor until next Saturday, which will be the fourth anniversary of his accession.

The text of the constitution was communicated to representatives of the Powers this morning. The document was signed on August 22. It is expected that a proclamation in regard to the constitution will be issued on Saturday.

Upon the suggestion of the Minister of the Interior all the Japanese consuls have agreed to sign a declaration of information in regard to the situation in Corea until the annexation is complete. This has been promulgated in order not to complicate the task of the Government.

WASHINGTON, Aug. 24.—Japan is to maintain the open door policy in Corea to the "favored nations." She will exercise an administrative rather than a restrictive power over newly annexed territory. This much of the annexation treaty was revealed to-day through a visit to the State Department of Baron Hiroshi, Ambassador from Japan. Neither Mr. Wilson, Chief Secretary of State, nor Baron Hiroshi would divulge the full text of the treaty.

Mr. Wilson announced that a private gathering would read the treaty at the department to-morrow, and that the Japanese Ambassador would authorize his publication on August 26 or 27. It is said that Japan will favor the exploitation of inter-Corea, allowing foreign capital to develop the minerals of the country. American capital will have an especially good field for investment as the United States is one of the "favored nations."

KAISER HONORS MONTE.

Special Representative to Attend Rejoice Mass for Chilean President.

SPECIAL CABLE DISPATCH TO THE SUN.
BERLIN, Aug. 24.—Gen. von Kossel will represent the Kaiser at the rejoicing mass that will be celebrated to-morrow over the remains of President Montt of Chile. The body will afterward be taken with military honors to the station, where it will be placed on a train for Bremen.

A military guard surrounded the bar in the Church of St. Hedwig to-day and will continue on duty throughout the night.

SOCIALISTS WIN IN SAXONY.

Vote for Their Reichstag Candidate Far Exceeds Those of Both His Opponents.

SPECIAL CABLE DISPATCH TO THE SUN.
BERLIN, Aug. 24.—The Socialists added another striking triumph to-day to their recent long list of successes. In the election for member of the Reichstag from Saxony, they elected their candidate.

He received 13,700 votes, against 4,350 cast for the Liberal and 4,090 for the Reform party candidates.

NO CLAIM FOR EXTRA MONEY.

Census Director Durand Says Enumerators Won't Get \$10 Additional.

WASHINGTON, Aug. 24.—In a statement given out to-day Census Director Durand throws cold water on an organization known as the National Association of Census Enumerators, whose object is to obtain \$10 for each of the 70,000 census enumerators who are employed to take the recent census of population.

The Director has a copy of a circular sent out by an officer of the association who lives in Milwaukee, requesting enumerators to produce \$1 each to help pay for legal counsel and otherwise meet the expenses of prosecuting a case before the court of claims to obtain \$10 additional compensation for each enumerator as payment for the work of distributing the advance schedules of population.

Director Durand says that as far as can be ascertained the movement has failed to obtain any appreciable support among census enumerators and it is clear that under the law the enumerators have no claim whatever for extra compensation. He reasons of their having been required to distribute the advance schedules. As a matter of fact, he says, when the advance schedules were furnished enumerators, the object of which was to assist them in their work, they were plainly told that they would receive no additional pay for distributing them.

TRIAL OF EAGLES STILL ON

POLITICS WITHIN THE ORDER BLAMED FOR CHARGES.

Alleged to Be Scheme to Beat Senator Thomas F. Grady for President. Hinted That Grand Jury Made His Profit Out of Late Punching Machine.

ST. LOUIS, Aug. 24.—The taking of evidence in the trial of the Grand Order of Eagles, a political organization, is still in progress.

Strict orders were issued by high officials that any delegate found divulging the trial proceedings would be subject to disbarment from the order. From a well informed delegate, however, it was learned that the prosecution concluded about 9 o'clock this afternoon with the testimony of Grand Secretary Conrad H. Mann of Kansas City, who made the discovery of the alleged fraud.

Bernard J. Monaghan, who presided over the trial, will probably be called to the stand to-morrow morning. Martin Gray of New Haven, Conn., and Thomas F. Hayes of Newark, N. J., former grand jurors who are also members of the order, are also expected to testify. Samuel J. MacMahon, president of Newark lodge, and Hayes's brother, John D. Hayes, are here coming for testimony.

The outcome of the trial is in doubt, the delegates being divided in their forecasts. The strongest sentiment is that the verdict will be guilty. Pressure is being brought to bear to have the verdict made public, as the charges have leaked out. The election of officers is in doubt, although it is generally believed Senator Thomas F. Grady of New York, the grand juror who made the discovery of the alleged fraud, will succeed.

Mr. Gray said he did not know the exact nature of the charges and theories. He said he could not attend the convention. Friends of Mr. Gray said tonight that politics with the charges and explained this statement by saying that there is a hot fight on between the supporters of Prof. Herring of South Carolina and Mr. Monaghan, who has a candidate for president in Senator Thomas F. Grady of New York City.

NEW YORK, Aug. 24.—Thomas F. Hayes was not at home to-day. It was said at the clubhouse of the Eagles that nothing was known there of the charges against Hayes. It was known, however, that the grand jury intended bringing some men to trial.

The grand lodge of Eagles recently adopted a change in the order's by-laws, which compelled every member of the lodge to subordinate across to purchase a late punching machine from the grand lodge. The price charged it was said, was \$10 each, while in open market prices for the same machine could be obtained for from \$12 to \$15. This situation is believed to have led up to the charges.

INCITE HINDUS TO REVOLT.

British Social Democrats Launch Incendiary Circular at a Critical Time.

SPECIAL CABLE DISPATCH TO THE SUN.
LONDON, Aug. 24.—The executive committee of the Social Democrats has chosen the moment when an important conspiracy trial is going on at Dacca, Bengal, to issue a manifesto denouncing British tyranny in India, which, it is declared, is going from bad to worse. Among other things the manifesto contains the following:

"All the infamies denounced by members of the present Cabinet when they were committed in Russia, Austria, Turkey and China are now being perpetrated in Hindustan by the Asquith Government. Is it to be wondered at that secret conspiracy and open assassination are spreading? When free speech, free combination and a free press are suppressed, what other course is open to an enslaved population?"

"Our despotism has forced the most peaceful and most submissive race in the world into an anarchic propaganda. India has been steadily impoverished for five generations by British robbery and extortion, and the horrors of poverty have become far worse than the horrors of war."

"We will take care that this manifesto is distributed in the native languages throughout Hindustan, so the population will know there is an active and growing party here which has neither part nor lot in the outrages and crimes committed by the Government."

CHINA MAN A COINER.

Caught in Maui With a Plant for Making \$10 Gold Pieces.

SPECIAL CABLE DISPATCH TO THE SUN.
HONOLULU, Aug. 24.—A Chinese counterfeit was caught yesterday with a full plant in a remote part of the island of Maui, where he had been making good \$10 gold coins.

Lee Young is his name. He had only been able to put a few coins into circulation.

HOSTERS CATCH GLANDERS.

They Contract the Disease From Handling Infected Horses.

POTOMACK, N. Y., Aug. 24.—The appearance of glanders in the human race is so uncommon that the medical fraternity is interested in the cases of Potomack, Morton of 41 Jay street and George Tutbill of 97 Catherine street, who are suffering from the disease. Both of the men are very ill, but it is believed that they will recover. Morton and Tutbill worked as stable hands in a livery stable where glanders developed in a cargo of horses shipped from the West. It is believed that they contracted the disease from the infected horses, twenty of which were shipped to the city in the same lot and are isolated in the city under inspection.

The appearance of the disease on such a large scale has caused alarm. The public horse-drawn carriages will be cleaned and disinfected and precautions will be taken to keep school children from playing in them. The State officers have been notified of the conditions.

Milkman Killed by a D. & H. Train.

GLENS FALLS, N. Y., Aug. 24.—Edward Sherman, 46 years of age, employed by the Farmers Dairy Association of this city, was killed on the tracks of the Delaware and Hudson Railroad this morning at 8 o'clock when his closed milk cart was struck by the Albany and Troy train. The cart and driver were dragged seventy-five feet and when the train was stopped Sherman was dead, his body being horribly cut and bruised. The accident occurred at the Monty crossing, a mile south of Glens Falls.

MY MEMORIES OF MARK TWAIN

By W. D. HOWELLS

No such delightfully intimate memories of a great writer have ever been given to the public as those which Mr. Howells has written of Mark Twain, his friend of more than forty years standing. In this number he pays his final tribute to Mr. Clemens, "the Lincoln of our literature," he calls him.

The Microbe as a Social Reformer

A practical scientific paper of the greatest importance. Robert W. Bruere, formerly general agent of the New York Association for Improving the Condition of the Poor, tells of the remarkable work of human conservation that has been done and is being done by the Health Departments in our great cities. The record of what has been accomplished is inspiring.

TINY STOMACH ACHES FOUND.

Policeman Didn't Know Why the Baby Cried, but the Matron Did.

A night watchman heard a baby's faint wailing last night as he passed the house of William N. Beach, president of the Pennsylvania Cement Company, at 814 Lexington avenue. Down in the dark of the basement entrance of Mr. Beach's home was a little day of eight. There, none in the thin white slip, the only garment she had, lay a tiny, crying baby. The watchman, who had been called to the door by a woman, explained to the police that Mr. Beach's family was in the country and that the house was boarded.

The baby was a girl of about 3 weeks old and she cried constantly. The dean lieutenant trotted her up and down in his arms and the doorman made faces, but she was too young to be amused. The more they strove to quiet her the more the founding cried. So the men police gave it up and sent for Matron Annie Menzies. They told her that something must be wrong with the child.

The matron felt for pins and found none in the thin white slip, the only garment she had. "Stomach ache," said Mrs. Menzies. "Take her straight to Bellevue Hospital."

At Bellevue they fed the baby a few drops of warm milk and she quit lamenting.
